

Dear Supervisors,

I just wanted to say thank you so much for sticking with the field issue and getting it done. I am hopeful that the contractor can get so much completed by Monday or Tuesday that it will make any appeal irrelevant. Our children thank you as well!!

Cathy McLaughlin

Dear West Pikeland Township,

Thank you so very much for your heroic efforts to provide our children with playing fields. Growing up, I always could walk to a local playing field and took them for granted. Now that I have children of my own and am completely dependent upon a car to drive them around, I am learning to appreciate them so much more.

I am also involved in GEYA, Glenmoore/Eagle Youth Assn soccer, and have thus been eagerly awaiting a playing field in our township. Currently, GEYA has to compete for playing fields with so many other groups outside of our township that by next year fields will have to be paid for with cold, hard parents' cash, raising the cost of a simple neighborhood league beyond the reach of some neighbors. Completing the West Pikeland fields so our kids can play on them will be the salvation of our local leagues.

Now, I would love to have a home closer to the park so my kids could walk to the field like I did in simpler times.

Thank you again!

Sincerely,

Cynthia Beech Lawrence
