

Public Notice
Vegetation Management

The Township Maintenance Personnel in conjunction with a licensed operator from Ehrlich Pest Control will be applying Round-up at the Pine Creek Park on July 1, 2009 between the hours of 9:30 a.m. and 11:00 a.m. The areas to be sprayed will include the track, stone parking area and the playground. This warning is intended for people and animals who might have allergies and vulnerable to the commercial Round-up product. The Township received a positive indication from Penn State Cooperative Agriculture Extension that Round Up is an acceptable product to treat unwanted vegetation in a park setting.
